

Year 4 Communication Flyer

Miss Martin Mr Martinez

WEEK ENDING: 26.04.19

In Maths, we have been learning to:

Multiplying two and three digit numbers by a one digit number. We have looked at formal methods of multiplication and also looked at regrouping.

See if you can challenge us to some trickier questions over the weekend!

In Science, we have been learning to:

The digestive system. You may have heard rumours that we were making poo in class and it was true! We watched Operation Ouch to find out what happens with our food once inside our body. We then made our own digestive systems.

In English, we have been learning to:

Write a character description. We started off by reading Charlie and the Chocolate Factory. We looked carefully at the descriptions of each of the characters and then imagined that there was a 6th winner of the golden ticket. We completed the week by writing a description of our own character.

This week's homework is:

As we are away next week, there will be no spellings to complete. Next week is Murphy's birthday so the children can have a think of ways that they can celebrate at school and at Conover Hall.

Important Messages & Diary Dates:

On Monday morning, children who are going to Conover Hall will be asked to come straight to the hall with their parents to hand over luggage and any medication. The coach will be leaving school at 10.

Children who are staying at school will line up outside as normal. The children will then be put together as one class for a week of fun activities.

Please keep an eye out for letters informing you of the new shared reading that will be starting in a few weeks' time.
