

Year 5/6 Communication Flyer

Mr Geer

Mrs Snelson

Mr Barlow

Mrs Nyakasikana

WEEK ENDING: 25th October 2019.

Maths

This week, we have reviewed some very important learning from this half term. We have been working hard on decimal numbers and rounding. We have also looked at positive and negative numbers. We have ordered ten and found the difference between them.

English

This week we have had a grammar focus. We have looked carefully at using a single word as a noun, a verb and then an adjective. We have learnt about relative pronouns and how to use them. Parenthesis is something we have also discovered this week!
Standard and non-standard English as well as semi-colons is also something we have looked at this week.

Important Messages & Diary

Dates:

Home learning:

The children have been presenting their homework to the class this week. We are impressed at the many, many fantastic pieces of homework this half term.

Reminders:

5th December – School trip to the pantomime.

Victorian visitors coming into school on **Friday 8th November**. A letter has been sent out via gateway.

Please return all photo consent letters as soon as possible

Year 6 students – The first instalment for the PGL trip is due by 31st October to secure a place.

27th November - Year 5/6 WOW Day

Topic

Year 6 were very excited to have a visit from the local police to discuss staying safe online and in our local environment. We discussed the important issue of dangers in our local environment and what is or isn't safe to do. Year 5 had an exciting crime busting challenge where they worked in teams to solve the murder mystery. They were very surprised to discover the victims were goldfish!

Science

We have continued to explore the process of inheritance by Learning about influential scientists.

We looked at how the theory of evolution changed over time.
