

Year 2 Home Learning Menu Autumn Term 2

With your child you can 'dip into' any of the activities on the sheet. Your child can present their learning in any way they would like and bring in their pieces of work any time during the half term to share with their class.

Get computing:

Can you find out why plastic causes problems to the ocean?

Research a material of your choice. How is it made? Where does it come from? Etc.

Get creating:

How could you stop an egg from breaking if it's dropped? Can you make something to solve the problem? Which materials did you use?

Dip and Do
'Mighty
Materials
Autumn term 2'

Get investigating:

Can you investigate what material would be best to make a new shelter in the outdoor area. Why would you use that material? Would it last all year? Can you design the shelter?

Get making:

Can you make a picture using a range of different materials? What materials have you used?

Can you build something using your choice of materials? You could take a photo to show us!

Get visiting:

When you go out for the day can you record the different objects that are made out of the different materials? Do all the materials have the same properties? Why might they be different?

Get researching:

Can you find out what you can and can't recycle at home? Why is recycling important?

Get writing:

Can you design an information poster or leaflet to explain recycling and why it is so important?
