

Year 5/6 Communication Flyer

Mr Geer

Mrs Snelson

Mr Barlow

Mrs Nyakasikana

WEEK ENDING: 29th November 2019.

Maths

This week year 6's have developed their written methods for division using numbers with up to two decimal places. They have also been learning how to change fractions into decimals using division.

Year 5 have developed their written methods for multiplication. They have worked hard on multiplying 3, and 5 digit numbers by a 1 or 2 digit number. Using this knowledge they have solved multiplication word problems.

English

In English, we have continued to learn about non-chronological reports. We have written our own based on The Beatles! We have also been improving our grammar by learning how and when to use parenthesis as brackets.

Additionally, we have also looked at our spellings, spelling rules, and when and how to apply them.

Important Messages & Diary

Dates:

Home learning:

Hopefully you have been enjoying completing home learning tasks over the last few weeks. There are many fantastic pieces already on display in classrooms. All home learning is due in by Tuesday 16th December.

Topic

We had great fun learning about Victorian toys and making some of our own. Zoetropes, spoon dolls, twisting toys and spinners.

We all thoroughly enjoyed our Victorian Tea Party and hope you did too! It was lovely to see so many parents enjoying it too.

Science/DT

We have learnt about electrical circuits. How they work, how to build them and where they are used.

Reminders:

Pantomime visit Thursday 5th December

Bikeability for those children who have signed up will start next week.
