

Year Two Weekly Communication Flyer

Mr Clarke

WEEK ENDING: 18th September 2020

In English this week:

We have been learning about another traditional tale of 'Jess and the bean root.' As a class we explored who the characters were. We then started to use verb and adverbs to write sentence based on the tale before using conjunctions to expand the sentences.

In Maths this week:

We have been thinking about what $=$ (equals) means and how it can also mean the same. We used scales to make the equation equal. We could see that the scales were balanced. Finally, we found out how we can make the scales unbalanced.

Important Messages:

Children have been busy during Independent learning, weeding the gardening area. We will soon be ready to plant some of our own healthy veg! When the weather sadly turns children will need to have a pair of wellies at school to access this area.

Key Dates

PE will continue to take place on Thursday afternoons. Please ensure children come to school in kits and ready for some exercise!

Our topic this half term is:

This week we have been learning about food groups and what makes a healthy diet! We have learned some key scientific vocabulary like carbohydrates, protein and vitamins and minerals.

Homework:

We will be providing children with their 'dip and dive' activities this week. Unfortunately, due to the current circumstances we are not able to have work sent in like last year. If you email me a photo of their work we can print it out for our homework display! I'm looking forward to seeing what they get up to!

If you have any questions about anything you can catch me briefly at the beginning or end of the school day. Otherwise, if you email or call I will do my best to get back to you as soon as possible. I look forward to getting to know your children and yourselves this year.
