

Year 5/6 Communication Flyer

Mr Whitehouse

Mrs Snelson

Mr Barlow

WEEK ENDING: 23rd October 2020.

Maths

In maths we have been looking at tracking back documents to help fill in the gaps where the pupils may have missed vital learning opportunities. We have revisited the 4 operations – addition, subtraction, multiplication and we are now heading towards division.

English

We have worked very hard in English week. Using, 'The Wolves in the Walls' by Neil Gaiman as a study text we have produced some very well written pieces of writing. We have approached our studies through different writing genres. There has been a significant improvement in the writing skills of the children.

Important Messages & Diary

Dates:

We are really excited to see the hard work that the children have been doing on their home learning. The emails with pictures of the fantastic work has been coming in thick and fast. Keep them coming!

Reminders:

Please read at home every night with your child. This is very important as it develops their reading and literacy skills.

Following Government guide lines there should only be one adult/ parents/carer dropping off/collecting in order to ensure that we can maintain social distancing on playgrounds. Please remember to wear a mask when entering the school grounds.

Topic

In topic we have continued with the history theme. We have been taking a close look at the specialist features of a space shuttle! As we reach the end of the half term we will start to look at the geography of the historic places studies.

Science/DT

Science has continued to mirror topic with our outer space theme. We investigated the big question: How was the universe formed and discovered? What is the big bang theory? This has also meant we have looked at gravity and its purpose.
