

Summer 1 - Home Learning Year 2

Any completed work can be emailed to the teacher via pictures, videos or email attachments. Please bring any learning into school. All home learning should be sent by 11th February.

We are readers:

Can you find any new books we haven't read in class on Carbon Footprint and create an informative poster?

We are scientists:

Choose an endangered animal and create a fact file.

- Where do they live?
- Why are they endangered?
- What could we do to help them?

We are athletes:

Let's be good to the environment and get walking, scooting or cycling. Using cars less will help reduce your carbon footprint!

Take some photos to share with everyone of you using eco-friendly transport.

We are artists

Can you create a sculpture or picture using junk? You can make this about anything you want. Perhaps you will use newspaper/magazine collage to create a landscape? Or your favourite animal etc.

You could even make your own paper mache if you wanted to!

We are engineers:

Can you help mum and dad with the recycling at home? Find out what can and can't be recycled in your area.

Can you design, draw and label a fictional machine to help solve global warming?

We are authors:

In English we have read the book Greta and the giants.

Can you research Greta Thunberg and record some interesting facts about her?
