

Summer Home Learning Year 5 and 6

Any completed work can be emailed to the teacher via pictures, videos or email attachments. Please bring any learning into school.

All home learning should be sent by 17th June

We are readers:

Ensure that you are reading a minimum of 4 times a week and logging it in your reading record.

Take your library book from school, a book from home or visit <https://home.oxfordowl.co.uk/reading/free-ebooks/> for different books.

(Oxford Owl website requires a free account to be made by an adult)

We are authors:

Sir David Attenborough is a very well-known English broadcaster and natural historian. He was born on the 8th of May 1926, in London. He studied natural sciences at Cambridge University and joined the BBC in 1952.

Write a biography all about Sir David Attenborough.

We are engineers:

Create an eco-brick:

Tightly pack an empty clean plastic bottle with plastic waste.

We will then use these bricks to make a planter.

We are scientists

Research items that can be reused and recycled and show the 'life cycle' of the item.

For example: how can a plastic bottle can become a fleece jumper? How can car tyres can become shoes?

We are musicians

Listen to the songs: "Don't Go Near the Water." by The Beach Boys, and "Wake Up America" by Miley Cyrus and give an opinion.

What do you like about it?

What do you dislike about it?

What do you think the message is in regards to climate change?

We are fitness superstars

Create an outdoor game that can use eco-friendly materials to play with.

Create the rules and explain how to play the game.
